Most of us have had the experience of becoming hooked on a new hobby or activity only to start something else once the "new" has worn off. That was Linda's story until 24 years ago when she made her first quilt and found herself living a life driven by infinite possibilities of quilted art inspired by the color, texture and designs in fabric. After making a complex reverse appliqué stain glass quilt, Linda developed a streamlined technique to make the same beautiful quilt in half the time. She has never "cooled" or looked back. Linda trademarked her technique, FUSIQUE'®, which is a fused reverse appliqué process. In 2000 Linda successfully launched her pattern design company Among Friends using her innovative technique. Linda's trunk show of quilts with a blast of color will amaze and inspire you to create new quilts.
